To: Dr. Ajay Goenka | Medicine | Chirayu Medical College

Email: info@cmchbhopal.com

Hi Dr. Goenka, Happy to introduce Fnomo.com. We are a new start-up and we've recently launched a software designed for professionals like you — who often have limited time to manage investments and sometimes rely on others for decisions. Fnomo is a stock analysis platform (not trading). We don't earn when you trade — it works on a simple subscription model, so there's no conflict of interest. Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .

To: Dr. Skand Kumar Trivedi | Cardiology | Bansal Hospital

Email: skand.trivedi@bansalhospital.com

Hi Dr. Skand Kumar Trivedi, Happy to introduce Fnomo.com. We are a new start-up and we've recently launched a software designed for professionals like you — who often have limited time to manage investments and sometimes rely on others for decisions. Fnomo is a stock analysis platform (not trading). We don't earn when you trade — it works on a simple subscription model, so there's no conflict of interest. Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. We are a new start-up and we've recently launched a software designed for professionals like you — who often have limited time to manage investments and sometimes rely on others for decisions. Fnomo is a stock analysis platform (not trading). We don't earn when you trade — it works on a simple subscription model, so there's no conflict of interest. Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .

To: Dr. Nitya Bisarya | Anaesthesia | Apollo Sage Hospital

Email: nitya.bisarya@apollosage.in

Hi Dr. Bisarya, Happy to introduce Fnomo.com. We are a new start-up and we've recently launched a software designed for professionals like you — who often have limited time to manage investments and sometimes rely on others for decisions. Fnomo is a stock analysis platform (not trading). We don't earn when you trade — it works on a simple subscription model, so there's no conflict of interest. Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .

Hi Dr. Choudhary, Happy to introduce Fnomo.com. We are a new start-up and we've recently launched a software designed for professionals like you — who often have limited time to manage investments and sometimes rely on others for decisions. Fnomo is a stock analysis platform (not trading). We don't earn when you trade — it works on a simple subscription model, so there's no conflict of interest. Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .

Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .

To: Dr. Ankur Gupta | Orthopaedics | Apollo Sage Hospital

Email: ankur.gupta@apollosage.in

Hi Dr. Gupta, Happy to introduce Fnomo.com. We are a new start-up and we've recently launched a software designed for professionals like you — who often have limited time to manage investments and sometimes rely on others for decisions. Fnomo is a stock analysis platform (not trading). We don't earn when you trade — it works on a simple subscription model, so there's no conflict of interest. Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .

Hi Dr. Saurabh, Happy to introduce Fnomo.com. We are a new start-up and we've recently launched a software designed for professionals like you — who often have limited time to manage investments and sometimes rely on others for decisions. Fnomo is a stock analysis platform (not trading). We don't earn when you trade — it works on a simple subscription model, so there's no conflict of interest. Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .

Fnomo is a stock analysis platform (not trading). We don't earn when you trade — it works on a simple subscription model, so there's no conflict of interest. Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .

You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .

To: Dr. Ajay Goenka | Medicine | Chirayu Hospital

Email: info@cmchbhopal.com

Hi Dr. Goenka, Happy to introduce Fnomo.com. We are a new start-up and we've recently launched a software designed for professionals like you — who often have limited time to manage investments and sometimes rely on others for decisions. Fnomo is a stock analysis platform (not trading). We don't earn when you trade — it works on a simple subscription model, so there's no conflict of interest. Think of it like Google for your investments. Before you put your money or act on someone's advice, you can use Fnomo to check and validate your decision clearly. You can explore it here: <https://fnomo.com> and do free sign-up Everything is simple and color-coded, so even non-finance users can understand it easily. If helpful, I can arrange a quick demo to walk you through it.

Warm regards, Kush Trivedi, Business Head ,9340392140 .
